

BITS 'N BOBS

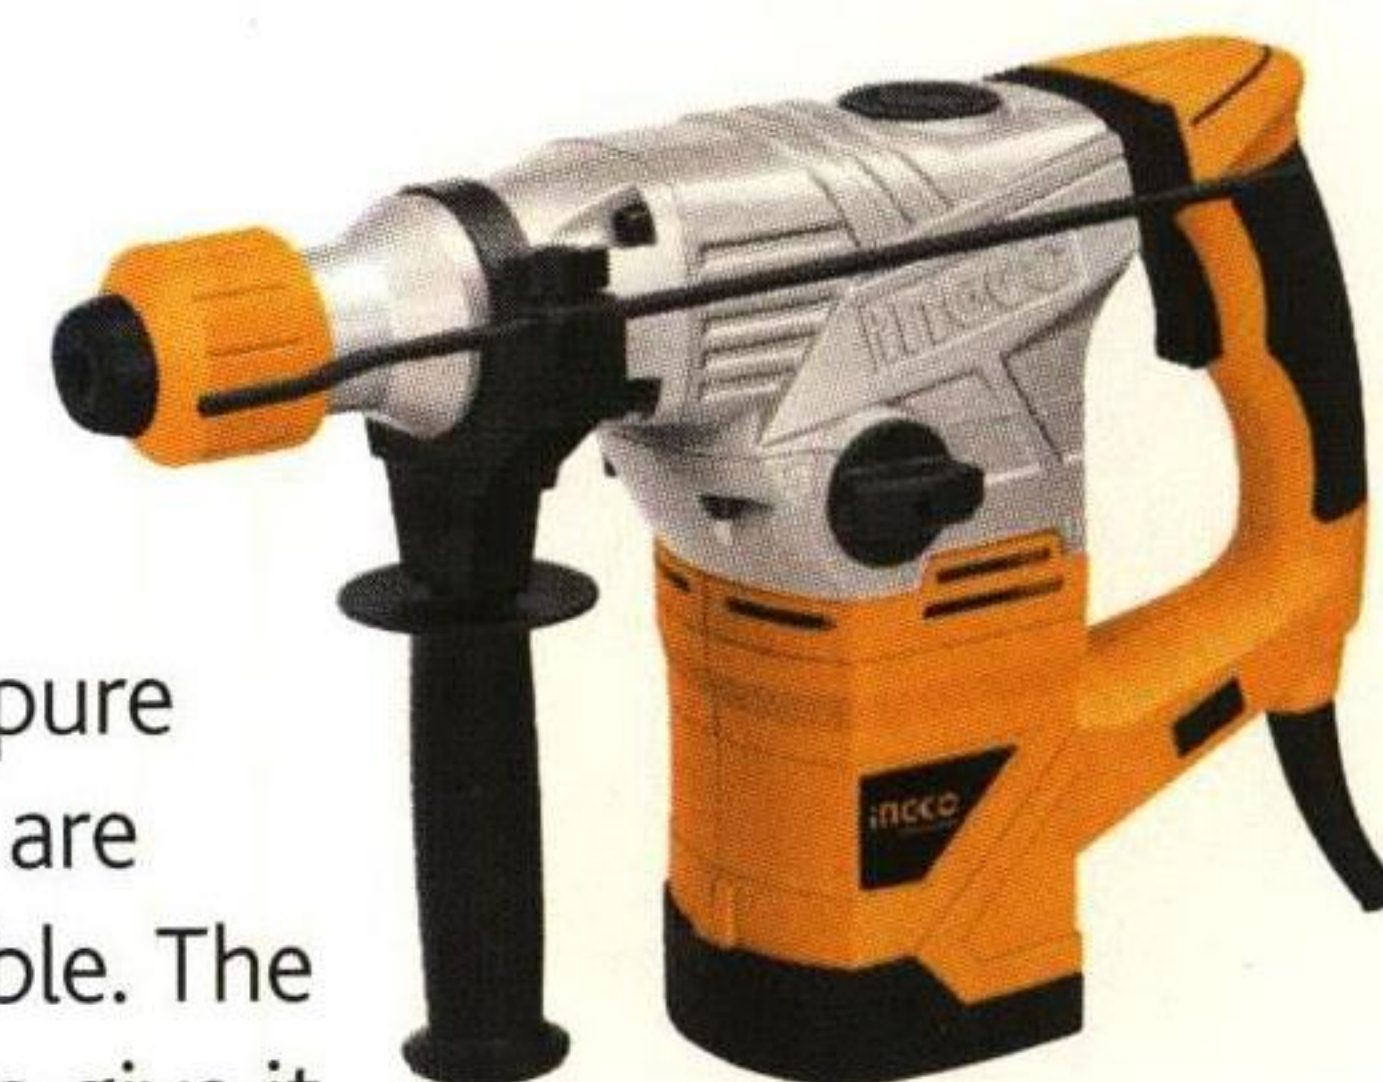

Recharge yourself

If you're sick and tired of flat batteries in your tools, Energizer recently launched their neat-looking, unique, modern, compact **Universal CHEUF battery charger** that recharges all the popular battery sizes including AA, AAA, C, and D cell, plus 9-volt batteries. It will charge 4 cell units at one time and two 9-volt batteries. This sealed unit comes with a pop-up lid and has an LCD panel that indicates charging status and shows the state of the batteries that are being charged, with an LED indicator for the 9-volt batteries. The unit charges the batteries in 3 to 5 hours and ensures a 100% charge. The new charger helps to maximise battery performance retaining capacity by preventing damage from overcharging. Available exclusively from Vermont Sales retail outlets nationwide, visit www.vermontsales.co.za.

Industrial-quality

The **INGCO Rotary Hammer** has a rotor and stator which are longer and made of high quality pure copper wire. The carbon brushes are superior and designed to be reliable. The gear is tempered and hardened to give it a longer lifetime and increased reliability. The Rotary Hammer unit has a large volume cylinder which displaces more air and gives the hammer drill a more powerful impact punch. The cylinder is very tightly sealed and is designed to deliver high impact energy. It is ergonomically designed, has a bigger switch for more comfortable operation, an anti-vibration system to reduce operator fatigue and a soft grip handle, which makes it a pleasure to use for long, tough jobs. Available from all leading AutoBarn dealers. To locate your nearest dealer call AutoBarn on 011 477 3612.

Outdoor multi-tool magic

The innovative **EGO Power+ system**, a cordless, effortless way to get the best of gardening and landscaping tasks, is now available in South Africa through specialist equipment supplier, Smith Power. Powered by an industry-leading 56V Arc Lithium battery, the EGO Power+ system delivers petrol-matching power, but without any of the downsides of petrol-powered units. The range of EGO's outdoor, lawn, and garden tools include lawnmowers, domestic string trimmers, brush cutters, and a multi-tool system that provides a

powerhead on which you can attach a host of attachments, such as a telescopic hedge trimmer and pole pruners, lawn edgers, brush cutters and string trimmers, all driven by a single power unit. Go to www.smithpower.co.za for more information.

The tough mobile

If you do a lot of DIY or run your own handyman service, you probably need a phone that can withstand some rough handling. The **Cat® S31** is exactly what you're after. It's IP68 and MIL Spec 810G rated, making it tougher than tough. Water- and dust-proof, its rubberised exterior saves the sensitive electronics from drops and knocks. The large 4.7-inch LCD screen is readable, even in low light, and surprisingly works as well when you wear gloves. It has 16GB storage space and a microSD card slot to add extra data. The phone also packs a hefty 4,000mah battery that delivers around 30 hours of talk time with enough spare juice to check your emails.

Light up your life

Legrand SA, specialists in electrical and digital infrastructures, has revamped its website. The easy-to-navigate site showcases Legrand's comprehensive product range, which is designed to suit the specific requirements of every industry. For residential applications, Legrand gives information about security products, home automation, lighting, wiring devices, and distribution boards, as well as breakers and timers.

New on shelf

The Lighting Warehouse's newly-launched **Aurelia pendant light** in Copper and Chrome, both priced from **R1 400**, boasts a contemporary, yet sci-fi-retro look. Its unique whisk-shape and shiny metallic finish offer a streamlined and elegant look that is subtle, and not too over the top. Either used as a single feature pendant, in a line or grouped together, all to great effect. Visit www.lightingwarehouse.co.za to shop online or to find a store close to you.
