

### TRY A NEW COLOUR

The easiest way to update and transform a room is with a lick of paint – add a complementary colour to the existing colour scheme, or paint the walls a fresh, new shade. Alternatively, you could use up extra bits of paint to reinvigorate old items of furniture.

**Volcano hanging light, R1 499, Lighting Warehouse**

Go online for how to make a soft grunge cushion.

### OUTSIDE IN

Winter can make your home feel a tad dark and gloomy, so what better way to add some joy than by bringing the outdoors in? House plants work their quiet magic in a way that not only makes your home look beautiful, but also helps keep you healthier by improving the air quality. Add some eye-catching planters to bring cheer to any space.
